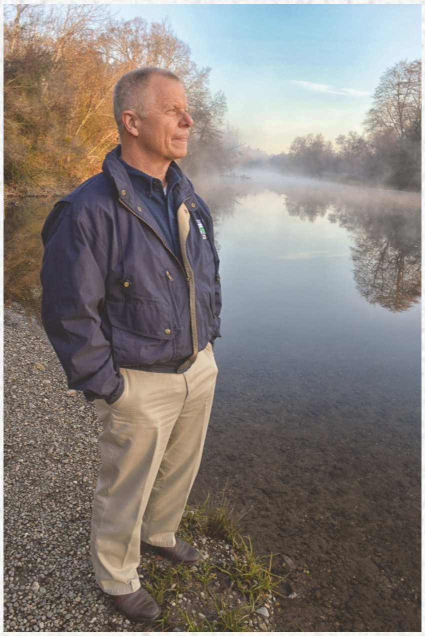
Introductory Section



Water Year 2017 in Review

by Steve Knell, General Manager

The year 2017 turned out to be a year for the hydrologic record books. New Melones Reservoir, which can store up to 2.4 million acre feet (MAF), started the 2017 water year on October 1, 2016 with a measly 527,400 acre feet. That's 22% of its capacity. A record rainfall and runoff year allowed the 4th largest dam in California to finish the water year on September 30 2017 with 2.02 MAF or at 92% of capacity. Between those two dates however the total inflow to New Melones, per Government records, was 2.9 MAF. If you're doing the math, the pass through of water through New Melones was 1.41 MAF! A lot of water went to the ocean. Stanislaus basin precipitation as measured at Strawberry (4,000 feet elevation) was 76.07 inches and only second to 1982-83 water year of 76.65 inches. The average in the basin is 38.84 inches.

On the legislative front, the State implemented the Groundwater Sustainability Management Act (SGMA) in 2014. This single legislation will change the face of water management and specifically groundwater management, in the Central Valley forever. Compliance requirements contained in the legislation has put all the Central Valley on a fast track of implementation. No one is exempt. All cities, irrigation districts, and those not in either, will have to comply. There are small water user exemptions but for the most part, we are all going to be impacted. Back in January, OID, MID, and the cities of Modesto, Oakdale, Riverbank, Waterford and the County of Stanislaus began forming a Groundwater Sustainability Agency (GSA), to begin development of the organizational structure for management of groundwater in our "Modesto Subbasin." The compliance deadline for GSA formation was June 2017, which was accomplished through a lot of hard work by the staffs from the above named agencies.

If not enough mandates from the State, at the beginning of 2017 all the water and irrigation districts who divert and use surface water, made their public comments to the State's Bay-Delta Water Quality Control Plan Substitute Environmental Document. The State's Plan is to take 40% of all the river flows generated by the Stanislaus, Tuolumne and Merced Rivers and send it to the ocean. Using some bizarre and voodoo science processes, and ignoring the documented impacts of invasive species, non-native fish predation, waste discharges from cities, climate change, poor habitat, etc., they believe that sending our water to the ocean is going to improve delta health. Go figure. In an effort to avoid a decade of litigation the three rivers and their diverters, OID, MID, TID, CCSF and MeID have been meeting with the Governor's office and other state resource agencies to see if there is enough common ground and common sense left to come up with a workable option. We should know something in 2018 if there is hope in that effort.

In March OID awarded a construction contract to Drill Tech Drilling and Shoring to bore a new tunnel that will be replacing a failing section of the OID's South Main Canal. That $15 million project is being paid with cash from water sales revenues of OID's surplus water. That's a bill our constituents won't have to pay.

A Message from the General Manager—continued

More good news, OID was the recipient of a $3 million matching grant from the State's Proposition 1 Water Bond monies. The grant money is going to the expansion of OID's Rubicon Total Channel Control Technology System. This system will expand canal water control abilities in the OID service area and result in better, quicker and more responsive water service to our water customers. OID's $3 million contribution is being paid by, you guessed it, water sale revenues of surplus water. Another bill our constituents won't have to pay.

In June OID finalized the last of 1,100 acres of annexations to its service area. Since 2012, OID has expanded its agricultural base by over 10,000 acres and has committed over 30,000 acre feet of conserved water to that local benefit. This water was generated through conservation projects paid for from the sale of surplus waters. Without this money OID could not have generated the water to annex these lands resulting in both a benefit to our local Ag economy and to our community at large.

It takes the collective vision and hard work from great Board members to make a great organization. I can say unconditionally OID is in a position financially and technically today because of that Board leadership. To that end, one of OID's longest serving Board Members, Director Steve Webb retired from his Board position at the end of 2017. This is after 32 years of dedicated and selfless public service. We all wish Steve and his family the very best in the coming years and to accept our most humble thanks for your service to OID.

Steve Knell,

General Manager

June 19, 2018

Honorable President and Members of the Board of Directors, Customers, and
Interested Parties of the Oakdale Irrigation District:

We are pleased to present to you the Oakdale Irrigation District's (District) Comprehensive Annual Financial Report (CAFR) for the year ending December 31, 2017. This report is published to provide the District's Board of Directors, District citizens, staff, and other readers with detailed information concerning the financial position and activities of the District. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The District's CAFR has been prepared using the financial reporting requirements set forth by the Governmental Accounting Standards Board (GASB) generally accepted accounting principles (GAAP), and audited in accordance with generally accepted auditing standards by an independent certified public accountant. This letter of transmittal is designed to complement the Management's Discussion and Analysis (MD&A) and should be read in conjunction with it.

To the best of our knowledge and belief, the enclosed report is accurate in all material respects and is organized in a manner designed to fairly present the financial position of the operations of the District. The accompanying disclosures are necessary to enable the reader to gain the maximum understanding of the District's financial affairs.

Fedak & Brown, LLP have issued an unmodified ("clean") opinion on the District's financial statements for the year ended December 31, 2017. The independent auditor's report is located on page 2 of this report. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended December 31, 2017 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and estimates made by management; and evaluating the overall financial statement presentation.

For a detailed analysis of the District's financial performance, it is recommended that the reader consult the Management's Discussion and Analysis section on page 5 of this report.

The District was formed on November 1, 1909 as an irrigation district of the State of California formed pursuant to the provisions of Division 11 of the California Water Code (the "Act") for the purpose of delivering irrigation water to the agricultural lands within its boundaries. Geographically, the District encompasses parts of Stanislaus and San Joaquin Counties, about 12 miles northeast of Modesto and 30 miles southeast of Stockton. Urban areas in the District include the cities of Oakdale and Valley Home located in Stanislaus County. The District has one blended component unit, the Oakdale Irrigation District Financing Corporation ("Financing Corporation"). The Financing Corporation is a nonprofit public benefit corporation created in 1988 for the purpose of aiding the financing of projects for the District.

Water to supply the District comes principally from the Stanislaus River under well-established adjudicated water rights but also from water reclamation and drainage recovery systems and pumping from deep wells. The District's distribution systems include the Goodwin Diversion Dam on the Stanislaus River below the Tulloch Dam, at which point water is diverted into the District's main canal systems.

Currently the District operates and maintains over 330 miles of laterals, pipelines and tunnels, 24 deep wells, and 46 reclamation pumps to serve local customers. In general, the District's political organization and administration have not changed significantly over the last the years. However the District facilities and system operations have changed significantly as a result of replacement, improvement and modernization. The District provides surface irrigation (raw) water to over 2,900 connections, in addition to supplying domestic water to over 700 customers. The District does not presently operate a domestic water treatment plant or provide municipal or industrial water.

The District, along with South San Joaquin Irrigation District ("the Districts"), entered into a joint cooperative agreement on January 21, 1948, named the Tri-Dam Project. ("Project"). The Districts in 1955 issued revenue bonds to finance its one-half share of the costs of constructing the Project on the Stanislaus River. The Project consisted of building the Donnells, Beardsley, and Tulloch Dams and Reservoirs, together with associated hydroelectric plants. The Project is managed by a joint board of directors comprised of the five directors of each district. Oversight responsibility, the ability to appoint management and key employees, and authorize and approved contracts and financing arrangements, is exercised by the joint board of directors. The Districts each retain their one-half interest in the assets and liabilities of the Project. The Project issues financial statements as a separate reporting entity .

Effective January 1, 2014, the Districts entered into a new power purchase and sale agreement with the City of Santa Clara, California, through its municipal electric utility, Silicon Valley Power. Under the agreement, the Districts agreed to sell the net electrical output and installed capacity of its power generating facilities to the City through December 31, 2023. Under the agreement, the Districts will receive a fixed contract price per megawatt hour (MWh) with scheduled increases ranging from 2.6% to4.4% each year. Recent California legislation requires utilities to obtain required renewable energy in its generation portfolio. It is expected that demand for all renewable energy will increase in the foreseeable future.

In 1982, the District and the South San Joaquin Irrigation District entered into a joint exercise of powers agreement in order to form the Tri-Dam Power Authority (Authority) for the purposes of exercising common powers in constructing, owning, operating, and maintaining facilities for the generation of electric power. In 1984, the Authority issued $62 million in Sand Bar Project Hydro-electric Revenue Bonds. The bond proceeds were used to finance the construction of what is known as the Sand Bar Project, consisting of one hydroelectric turbine and generator installed in the vicinity of the Sand Bar Flat Diversion Dam, together with a related diversion facility, conveyance tunnel, transmission line, access roads, bridges, equipment and other improvements. The Authority paid off all outstanding debt in November 2016. The Authority, on January 1, 2017, entered into a new power purchase and sale agreement with the City of Santa Clara, California through its municipal electric utility, Silicon Valley Power. Under the agreement, the Authority will receive a fixed contract price per megawatt hour (MWh) with scheduled increases ranging from 2.6% to 4.4% year from 2018 through 2021.

<u>Governance</u>

The District is governed by a 5-member Board of Directors who are elected by the residents of the District to staggered four-year terms. A list of the District's Board of Directors is provided on page xvi of this report. Elections were held in November 2017, elected officials were incumbent Herman Doornenbal, candidate Tom Orvis, and candidate Brad DeBoer. To facilitate matters, most business coming before the District's Board is first considered by one of its committees. Each committee then reports to the full Board, which makes the final decision. There are seven standing committees that include Domestic Water, Finance, Personnel, Planning and Public Relations, San Joaquin Tributaries Authority, Tri-Dam Project, and Water/Engineering.

Day-to-day operations of the District are managed by the General Manager who is hired and reports directly to the Board of Directors. Reporting to the General Manager are three departments: Finance, Support Services Operations, and Water Operations/Engineering. The District's Organizational Chart is provided on page xv of this report.

The District has a wide range of powers to finance, construct, and operate facilities for the transportation, and distribution of raw water, as well as hydroelectricity. It has the full authority to set rates for services without review of any governmental unit and it is accountable only to its electors.

Land and Land Use

The District encompasses an area of approximately 80,941 acres, with an approximately 77,000 additional acres within its sphere of influence. Urban areas in the District include the cities of Oakdale and Valley Home located in Stanislaus County. Lands are relatively level, with elevations from near sea level at the west end of the District to 250 feet above sea level at the east end. District is presently considered to be nearly fully developed even though the total cropped acreage may vary from year-to-year depending on the amount of fallowed ground and/or newly annexed lands.

As the District predicted cropping patterns continue to evolve with irrigated pasture being converted to more profitable permanent crops such as Almond and Walnuts.

Budget Process

The annual operating and capital improvement budget serve as the foundation for the District's financial planning and control. Budgets are adopted on a basis consistent with Governmental Generally Accepted Accounting Principles (GAAP). Budgetary controls are set at the department level and maintained to ensure compliance with the budget approved by the Board. Department managers have the discretion to transfer appropriations between activities within their departments. The General Manager has the ability to approve capital improvement plan (CIP) overall appropriations. Overall, budget appropriation increases require Board approval through the budget amendment process.

Local Economy

Economic Growth

The District's service area encompasses a portion of both Stanislaus and San Joaquin Counties ("Counties"). These Counties are of the most agriculturally rich regions in California. Because of the agricultural heritage, the Counties offer vast areas of open space and easy access to a world of adventure with nature. Oakdale is the gateway to Yosemite National Park and the Sierra Nevada foothills. The Stanislaus River winds through the middle of the District's service area making about 60% of the District lying on the south side of the river and 40% lying on the north side. The river itself provides many opportunities for outdoor recreational sports including fishing, camping, hiking, and hunting.

Agriculture and farming is the economic foundation of the Counties and one of the top industries in the Counties. The productive soils, low cost water, long growing seasons, progressive farming practices and extensive transportation networks combined support a successful farming and business region. According to Stanislaus County, in 2016, farmers in Stanislaus County exported more than 134 commodities to 107 countries around the world of which Japan received 10% of the exports followed by Hong Kong and Spain at 9%.

According to the Stanislaus County Ag Commissioner's Crop Report, the value of agricultural commodities produced in 2016 in Stanislaus County decreased by 16% to $3,261,411,000. This represents a decrease of $617,921,000 from a total in 2015 of $3,879,332,000. This decrease is primarily attributed to a reduction in yields for many commodities due to the residual impacts from the drought and a drop in the values of milk, walnuts, almond meats, silage, cattle and calves. Almonds posted the largest decrease at $336 million followed by cattle and calves at $104 million and silage at $46 million. The crop report for 2017 was not available at this time.

According to Stanislaus County, home values in Stanislaus County increased 4.6% from August 2016 to August 2017, while new construction continues with the trend of small increases since 2011. Additionally, Stanislaus County's construction sector, before the Great Recession, employed 14,000 people in 2015 compared to 8,300 people in 2016.

According to the San Joaquin County Ag Commissioner's 2016 Annual Report of Agricultural Production, the gross value of agricultural production for 2016 was $2,337,922,000. This represents a decrease over the 2015 value of $2,732,917,000. Significant changes for 2016 were due to fruit and nut crops experiencing a loss of $161,556,000 in value, or a decrease of 11.68% from 2015. Field crops experienced a decline of 37.1% primarily due to conversion to permanent crops, fallowed land, and destructive weather conditions.

Economic Growth

Local employers include government, retail, and manufacturing with a heavy emphasis on agriculture. Stanislaus and San Joaquin Counties rank among the top ten California counties in terms of annual agriculture production values with leading commodities, being milk, almonds, and poultry.

The sales tax in Oakdale is 8.375%, which is higher than average for cities in Stanislaus County (7.875%) and higher than average for California (7.75%). Oakdale is one of 21 cities in Stanislaus County with a distinct sales tax as listed by the California Board of Equalization. In 2014, the City of Oakdale passed Measure Y to increase Oakdale's sales tax by a half of a percent. This increase will continue into the year 2020. The District supports its community by purchasing locally whenever it is prudent to do so. The District has helped to support and continues to support several community water safety and other safety programs, and agricultural programs for its local community groups for an overall contribution of $1.13 million over the last eight years.

Population and Employment

According to the U.S. Department of Labor and California Employment Development Department (EDD), 2017's annual unemployment rate in Stanislaus County was 6.8%, San Joaquin County was 6.4%, the State of California was 4.2%, and 4.1% for the nation, as compared to 2016's annual unemployment rate in Stanislaus County of 8.2%, San Joaquin County of 7.8%, State of California of 5.0%, and 4.7% nation-wide.

In 2017, Stanislaus County experienced an increase in population of approximately 1.17%, while San Joaquin County experienced an increase in population of 1.60%. In the 10-year period from 2008 to 2017, Stanislaus County's estimated population has increased by 4.2% to $547,899; and in a 10-year period from 2008 to 2017, San Joaquin County's population has increased by 8.7% to 745,424.

Within the District's service area there are a variety of industries, including government, agriculture, healthcare, education, and manufacturing. The largest employers in Stanislaus County are in the public service, education, and health services.

Long-Term Financial Planning

The District's use of unrestricted Net Position is subject only to the limitations imposed by the nature of its business, its articles of incorporation, and the environment in which it operates.

Water Revenue

In accordance with California Law, the District reviews its fixed water user fees and charges, and other fees to determine if they are sufficient to cover operation and maintenance costs, capital improvement expenditures and debt service requirements. Such charges and fees are set by the District for the services provided by the District after a public hearing is held. The District sets its agricultural water rates prior to the beginning of the year to pay the costs associated to deliver water to the landowner. The District bills it agricultural water users on an annual basis for a water delivery charge, separate from the Counties' property tax bill, with payments due in December and June. Additionally, agricultural water users are billed during the irrigation season for water used based off of volumetric measurement. The District's domestic water users are billed on a monthly basis.

One of the greatest challenges facing the District centers on finding new ways to meet increasing demands while minimizing the financial impacts to customers. The District's agricultural customers have benefited from low rates due to revenues from water sales and wholesale power generation. However, because of five years of drought, and the potential of the continuation of the drought in the future, wholesale power generation and water available for sales are impacted, and may affect these rates. As stewards of this natural resource, it is incumbent upon us to help communicate the value of this resource and assist our customers in using it wisely.

In 2017, the District's irrigation water rates were supported by approximately 63.7%, (or $16.4 million) due to Tri-Dam Project and Tri-Dam Power Authority cash distributions, and 11.0% (or $2.8 million) in annexation fees. In 2016, the District's irrigation water rates were supported by approximately 51.3% (or $15.8 million) due to the sale of water, and 25.9%, (or $8.0 million) due to Tri-Dam Project cash distributions. The District went through the Prop 218 process in 2014 to increase its agricultural water users rates. The Board adopted the proposed rates in October 2014. The water rates were partially implemented in 2015 and were fully implemented in 2016 and 2017.

Water Resources Plan

The District's Water Resources Plan (WRP), completed in June 2007, detailed how to rebuild and modernize its old and outdated system. The WRP's goals were and continue to be to: Provide long-term protection of the District's water rights; address federal, state, and local challenges; rebuild/modernize an out-of-date system to meet the changing customer needs; develop affordable ways to finance improvements; and to involve the public in the process. The WRP proposes that the District undertake a program to fund approximately $124 million in improvements to the irrigation delivery components of the Water System, and $44 million in Main Canals and Tunnel Improvements Program.

The District began the implementation of the WRP in 2008 and has completed approximately $64 million of improvements to date. The District began updating the WRP in 2012 to take into consideration the improvements and events that have taken place since its implementation. Results from the updated WRP were completed and reviewed by the District in 2015.

The WRP proposed that the cost of these improvements be funded by revenues from water sales, connection charges levied on approximately 4,250 acres of annexed land within the District's sphere of influence, borrowing, revenue from the sale of captured drain water, and rate increases. It is anticipated that increased efficiencies in the water system from these improvements will create additional supplies for the District, reducing estimated delivery losses from approximately 40% currently to 20%. The WRP determined that the ability to sell water and supply annexed lands with water could be supported through increased water supplies made possible through a rehabilitated and modernized water delivery system. A total of 11,608 acres of land applied for annexation. Local Agency Foundation Commission (LAFCO) approved 7,274 acres for annexation in 2013, and an additional 1,090 acres were approved by LAFCO in October 2016.

Implementation and construction of specific elements of the WRP are subject to approval by the Board of Directors. The WRP, when fully completed over the next 15 to 20 years, will greatly enhance the District's operations and service. It will continue to be the District's 100-year commitment to the region; "To protect and develop its water resources for the maximum benefit of the community it serves by providing excellent irrigation and domestic water service."

Major Initiatives

In 2014, the District, along with CH2M Hill, prepared a water rate study for two reasons: 1) to comply with the provisions of SBx7-7 and to incorporate the added operating costs this legislation requires; and 2) to correct a revenue shortfall in the District's budget due to a decline in wholesale power revenues and water sales. In accordance with the provisions of Article XIII D, Section 6, of the California Constitution, the District on August 19, 2014 began the Prop 218 process of notifying agricultural water users of proposed increases in agricultural water rates. On October 21, 2014, the District held a hearing and approved to implement the proposed rates in 2015. The new rate structure includes a "Flat Rate" to be assessed on a per acre basis according to the Counties' assessor parcel maps, a "Volumetric Charge" per acre-foot per acre used at the farm gate, and a "Drought Surcharge." Additionally, these rates are subject to a 3% escalator annually, at the District's discretion. This water study was fully implemented in 2016. The District elected not to implement the 3% annual escalator in 2017.

In 2010, following the introduction of Rubicon's Total Channel Control® (TCC®) technology and a comprehensive review of existing implementations in Australia, OID embarked on a pilot project to implement head-to-end installation of the TCC® canal automation system on two of OID's primary laterals totaling 15 miles in length. The system has been operational since the 2011 irrigation season and has improved the level of service to customers, eliminated the fluctuations at the supply point for a downstream DSO Division and nearly eliminating the operational spill at the end of OID's Claribel Lateral, resulting in a water savings of approximately 1,500 acre feet annually on that system. Efficiency improvements afforded by TCC® has enabled the District to further its ongoing efforts to conserve its water resources.

The District applied for a state grant under the Agricultural Water Use Efficiency 2015 Grants—Proposition 1 to further its commitment to future TCC® projects. A total of $30 million was made available with a potential cost share up to a 50% match and a funding cap per project of $3 million. A total of 50 proposals were submitted with requests for approximately $37.2 million in grant funding. Out of the 50 applications received, 38 are recommended to receive funding with OID's application being one of them in the amount of $2,972,770.

The proposed projects being considered under the Prop. 1 funding is the first phase of a District-wide implementation of the TCC® system. The project's intent is to automatically control and coordinate the operation of water level control structures along an entire length of a canal, thereby providing and maintaining consistent flow rates to farmers while simultaneously eliminating operational spills, potentially reducing spillage by approximately 4,170 a.f. annually. A total of 17 additional miles on 4 separate lateral canals will be automated and operated in downstream level control as part of OID's proposed TCC® Expansion Project.

Additionally, the WRP addressed high hazard locations on its main canals and tunnels. In March 2017, the District began construction of a new 5,949 foot long tunnel, two portals, and associated improvements on its South Main Canal at an estimated cost of $15.7 million to replace a failing section of its South Main Canal. The South Main Canal is one of the two arteries that supply surface irrigation water to approximately 42,736 acres. The District developed a reserve fund in anticipation of this project and is paying for it with cash reserves. Completion of this project is estimated early 2019.

Bonding

In 2009, the District made the decision to pursue accessing the capital markets as a source to finance several components of its WRP, specifically the construction of a north side regulating reservoir, a water reclamation project, and addressing high hazard locations on its main canal and tunnels.

The District received an "AA" rating from Standard and Poors by demonstrating its ability to accrue cash reserves sufficient to finance planned improvements. All this while conserving its cash reserves as a precautionary measure against a potential long-term drought, water rights issues, environmental concerns, water quality issues, and regional/local groundwater management issues. On March 5, 2009, the District successfully issued Certificates of Participation bonds of $32,145,000 at a true interest cost of 5.397% at a 30-year term with the option to pre-pay (without penalties) after August 1, 2019.

In September 2016, to take advantage of the bond market, the District refunded its 2009 Certificates of Participation bonds. The District received an "AA" rating from Standard and Poors based on the District's stable and predictable revenue and cash flow streams, good operational and financial practices and policies, very strong debt service coverage, and extremely strong liquidity. On September 8, 2016, the District successfully issued Certificates of Participation Water Revenue Refunding bonds of $26,165,000 at a true interest cost of 3.002% at a 22-year term with the option to pre-pay (without penalties) after August 1, 2023.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) established the Certificate of Achievement for Excellence in Financial Reporting Program (CAFR Program) in 1945 to encourage and assist state and local governments to go beyond the minimum requirements of generally accepted accounting principles to prepare comprehensive annual financial reports that evidence the spirit of transparency and full disclosure and then to recognize individual governments that succeed in achieving that goal.

The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the Oakdale Irrigation District for its comprehensive annual financial report for the year ended December 31, 2016. This was the tenth year that the District applied for and has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

Independent Audit

The District is required by bond covenants and state statutes to obtain an annual audit of its financial statements by an independent certified public accountant. This year's annual audit of the District's financial statements was conducted by the accounting firm of Fedak & Brown, LLP. The Board of Directors appoints an accounting firm to perform the annual audit typically every three to four years. The auditor's report on the basic financial statements and individual fund statements and schedules is included in the financial section of this report.

We wish to acknowledge the professional manner in which Fedak and Brown, LLP conducted the audit, and we express our appreciation for their assistance.

We would like to thank the Board of Directors for their continued interest, support, and direction in all aspects of the District's financial and water resource management. We would like to express our appreciation to all members of the District's staff, particularly the members of the Finance Department who have participated in the preparation of this report.

The accomplishments discussed were not possible without good people doing good work. OID has a unique staff and it is their collective workmanship, professionalism, and work ethic that is the contributor to OID's success.

Our challenge is to continue to lead with vision and be mindful that we are stewards of the landowners of the District in light of the water right challenges, groundwater sustainability, rigorous environmental issues, and a precarious economic environment.

Respectfully submitted,

Oakdale, California

Report on the Financial Statements

We have audited the accompanying financial statements of the Oakdale Irrigation District (District), which comprises the statements of net position as of December 31, 2017 and 2016, and the related statements of revenues, expenses and changes in net position for the years then ended, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these basic financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Oakdale Irrigation District, as of December 31, 2017 and 2016, and the respective changes in its net position and, where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

The summarized comparative information presented herein as of and for the year ended December 31, 2017, derived from those financial statements that were audited by the predecessor auditor, has not been audited. Accordingly, we express no opinion on it.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 14, and the required supplementary information on page 62 is presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section on pages i through xvii, and statistical section on pages 64 through 78, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated June 19, 2018, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance. This report can be found on pages 82 and 83.

The Management's Discussion and Analysis (MD&A) of activities and financial performance of the Oakdale Irrigation District (District) provides an introduction to the financial statements of the District for the year ended December 31, 2017 (with comparative information for the years ended December 31, 2016 and 2015). We encourage readers to consider the information presented here in conjunction with the transmittal letter in the Introductory Section and with the basic financial statements and related notes, which follow this section.

FINANCIAL HIGHLIGHTS

The District's financial operations have continued to remain strong during 2017. The following are several key points that are important when reading the District's CAFR:

- At December 31, 2017, the District's net position increased by 8.4% or $14.2 million to $183.5 million, an indicator of a strong financial year. At December 31, 2016, net position increased 14.2% or $21.1 million to $169.3.
- Operating revenues in 2017 decreased by 85.7% or $16.5 million primarily due to a reduction of $15.7 million in water sales revenues, and a $800 thousand reduction in ag water service revenues as compared to 2016 operating revenues increase of 126.5% or $10.8 million to $19.3 million.
- Non-operating revenues in 2017 increased by 53.6% or $8.9 million to $25.6 million as compared to 2016 non-operating revenues increase of 211.8% or $11.3 million to $16.6 million.
- Operating expenses, inclusive of depreciation and amortization expense, decreased by 1.0% or $132 thousand to $13.1 million as compared to 2016 operating expenses increase of 18.9% or $2.1 million to $13.2 million.
- Non-operating expenses decreased by 10.8% or $131 thousand to $1.1 million as compared 2016 non-operating expenses decrease of 19.8% or $300 thousand to $1.2 million.

REQUIRED FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The Statements of Net Position, Statements of Revenues, Expenses and Changes in Net Position, and Statements of Cash Flows provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies.

The Statement of Net Position includes all of the District's investments in resources (assets), deferred outflows of resources, the obligations to creditors (liabilities), and deferred inflows of resources. It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine if the District has successfully recovered all of its costs through its rates and other charges. This statement can also be used to evaluate profitability and credit worthiness. The final required financial statement is the Statement of Cash Flows, which provides information about the District's cash receipts and cash payments during the reporting period. The Statement of Cash Flows reports cash receipts, cash payments and net changes in cash resulting from operations, investing, non-capital financing, and capital and related financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

FINANCIAL ANALYSIS OF THE DISTRICT

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position report information about the District in a way that helps answer this question.

These statements include all assets, deferred outflows, liabilities, and deferred inflows using the accrual basis of accounting, which is similar to the accounting method used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the District's net position and changes in them. You can think of the District's net position – the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources – as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position is one indicator of whether its financial health is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning and new or changed government legislation, such as changes in Federal and State water quality standards.

As a government agency, unlike a private company, the District is not in business to make a profit. In contrast, the District has two major goals: recovering the cost of providing services to its constituents; and securing the financial resources needed to maintain and improve the capital facilities used in providing those services.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the basic financial statements can be found starting on page 23.

STATEMENTS OF NET POSITION

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets plus deferred outflows of resources of the District exceeded liabilities and deferred inflows of resources by $183.5 million and $169.3 million, as of December 31, 2017 and 2016, respectively.

STATEMENTS OF NET POSITION—continued

Net Position-continued

Assets
The District concluded the 2017 year having $65.7 million in available unrestricted cash and investments in general and designated reserve fund accounts, an increase of $7.1 million; as compared to an increase of $17.0 million in 2016. Of the $65.7 million of unrestricted funds on hand at December 31, 2017, approximately 81% or $53.2 million was managed by Highmark Capital and held by Union Bank of California (as custodian). The balance that represents immediate cash flow requirements are managed by Oakdale Irrigation District management staff and held in Oak Valley Community Bank, and the State of California Local Agency Investment Fund (LAIF).

Current assets increased by $5.5 million in 2017, as compared to a $17.4 million increase in 2016. The increase in 2017 current assets were primarily due to the net of an increase in cash and investments of $7.1 million, an increase of $163 thousand in improvement district restricted cash, an increase of $154 thousand in accrued interest, an increase of $86 thousand in annexation fee receivables, a decrease of $2.0 million in receivables due from other governmental agencies, and a decrease of inventory on hand at year end of $84 thousand. In 2016, current assets increased by 17.4 million primarily due to the net of an increase in cash and investments of $17.0 million, an increase of $1.9 million in receivables due from other governmental agencies, an increase of $120 thousand in improvement district restricted cash, a decrease of $620 thousand in ag water service fees receivables, a decrease of $848 thousand in prepaid expenses, and a decrease of $146 thousand in other current assets.

The District's other noncurrent assets in 2017 increased $2.5 million, as compared to an increase of $2.1 million in 2016. The increase in 2017 noncurrent assets were primarily due to the net of an increase of $1.7 million in the District's Tri-Dam Project investment, and $729 thousand in long-term annexation fees receivables. In 2016, noncurrent assets increased by $2.1 million primarily as a result of an increase of $5.2 million in Tri-Dam Project investments, a decrease of $2.3 million due to the use of COP bond reserve cash, a decrease of $769 thousand in annexation fees receivables, and a decrease of $11 thousand in other noncurrent assets.

Capital assets, net of depreciation, increased in 2017 by $6.5 million to $86.9 million, as compared to an increase of $1.2 million to $80.5 million in 2016. These increases are a result of the continuation of the Water Resources Plan capital improvement and modernization program.

Liabilities
Current liabilities increased in 2017 by $814 thousand to $6.0 million, primarily due to an increase of $1.329 million in year-end payables, an increase in employee compensated absences of $208 thousand, an increase of $85 thousand in COP bond accrued interest expense, an increase of $40 thousand in other current liabilities, a decrease of $699 thousand in unearned ag water fees unearned revenue, and a decrease of $120 thousand in current portion of COP debt. In 2016, current liabilities increased by $1.7 million to $5.2 million, primarily due to an increase of $1.03 million in year-end payables, an increase of $857 thousand in current portion COP payables, an increase of $346 thousand in COP bond accrued interest expense, held, and a decrease of $573 thousand in unearned ag water fees unearned revenue.

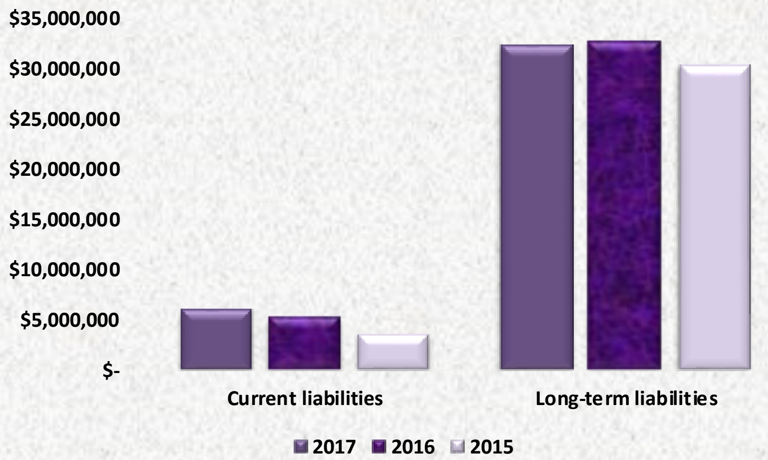
STATEMENTS OF NET POSITION—continued

Liabilities - continued

Non-current liabilities decreased in 2017 by $318 thousand to $32.5 million as a result of a $724 thousand increase in net person liability, a $928 thousand decrease in debt retirement, and a $114 thousand decrease in long -term employee compensated absences. In 2016, non-current liabilities increased by $2.3 million to $32.8 million as a result of a $1.2 million increase in long-term debt, and a $1.1 million increase in pension liability.

Deferred inflows of resources represent various adjustments related to the District's net pension liability. These adjustments are primarily due to changes in CalPERS' methodologies and assumptions in calculating the net pension liability, including differences between projected and actual earnings on pension plan investments, and changes in the District's proportionate share of the entire pension liability of all California government agencies participating in the same risk pool. For 2017, deferred inflows decreased by $112 thousand to $460 thousand, as compared to a decrease of $376 thousand in 2016 to $572 thousand.

Chart 2 - Liabilities Compared



STATEMENTS OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

The statements of revenues, expenses and changes in net position illustrates how the District's net position changed during the years. Overall, the District's total net position has continued to be strong as illustrated on the Condensed Statements of Revenues, Expenses, and Changes in Net Position shown below.

Table 2

STATEMENTS OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION—continued

Revenues

In 2017, total revenues decreased by $7.6 million to $28.3 million as a net result of:

- A decrease of $15.7 million due to no water sales for the to augmentation of flows to benefit migratory fish in the Stanislaus and San Joaquin River;
- A decrease in Tri-Dam Project's equity in undistributed net earnings of $3.4 million;
- A decrease of $811 in ag water service fees as a result of a one-time ag water delivery fee rebate;
- An increase in Tri-Dam Project's cash distributions of $8.4 million;
- An increase of $2.8 million as a result of annexation of 1,089.92 acres of ag lands;
- An increase in Tri-Dam Power Authority's cash distributions of $692 thousand; and
- An increase of $379 thousand in interest earnings.

In 2016, total revenues increased by $22.1 million to $35.9 million primarily as a net result of:

- An increase of $10.0 million as a result of a one-time water sale of $15.7 million with San Luis & Delta Mendota Water Authority and the California Department of Water Resources to augment flows to benefit migratory fish in the Stanislaus and San Joaquin Rivers in 2016;
- An increase in Tri-Dam Project's equity in undistributed net earnings of $7.1 million;
- An increase in Tri-Dam Project's cash distributions of $3.6 million;
- An increase of $816 thousand in ag water service fees;
- An increase in property taxes of $336 thousand; and
- An increase of $215 thousand in interest earnings.

Total Expenses

In 2017, total expenses decreased by $263 thousand to $14.2 million, primarily as a net result of:

- An increase of $425 thousand in non-cash pension expense due to GASB Statement No. 68;
- An increase in depreciation and amortization expense of $187 thousand;
- A decrease in bond issuance costs of $640 thousand;
- A decrease in bond interest expense of $131 thousand;
- A $104 thousand decrease in labor and related benefits, and materials and supplies.

In 2016, total expenses increased by $1.8 million to $14.4 million primarily as a net result of:

- An increase of $635 thousand in non-cash pension expense due to the implementation of GASB 68;
- An increase of $629 thousand in bond issuance expense;
- An increase of $358 thousand in legal fees;
- An increase of $356 thousand in labor and related benefits, and materials and supplies;
- An increase of $164 thousand in public outreach; and
- A decrease of $300 thousand in bond interest and amortization expense.

Changes in Net Position

Overall, the District's total net position increased by $14.2 million to $183.5 million during 2017 as compared to $169.3 million in 2016.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The following table illustrates the District's capital assets as of December 31, 2017, 2016, and 2015.

Table 3
Capital Assets

	2017	2016	Change	2015	Change
Capital Assets:					
Non-depreciable assets	$ 14,429,489	$ 6,332,984	$ 8,096,505	$ 4,665,700	$ 1,667,284
Depreciable assets	112,711,305	111,835,805	875,500	109,832,071	2,003,734
Accumulated depreciation	(40,195,283)	(37,676,304)	(2,518,979)	(35,229,142)	(2,447,162)
Total capital assets, net	$ 86,945,511	$ 80,492,485	$ 6,453,026	$ 79,268,629	$ 1,223,856

As of December 31, 2017, 2016 and 2015, the District had $87.0 million, $80.5 million and $79.3 million in capital assets, respectively, net of $40.2 million, $37.7 million and $35.2 million of accumulated depreciation, respectively. This represents a net increase in capital assets of $6.5 million over 2016. Total capital assets were $127.1 million in 2017 as compared to $118.2 million in 2016 or an increase of $8.9 million, and compared to an increase in 2016 of $3.7 million. The District invested a significant portion of the $8.9 million in its capital assets in 2017 to address modernization and rebuilding of the District's delivery system.

The District's 25-year Water Resources Plan (WRP) concluded that many of its conveyance systems are in poor condition and must be replaced or modified to meet water delivery service needs. The District will continue implementing its WRP investing in rehabilitation and improved service projects such as:

- Additional flow-control and measurement structures;
- Additional groundwater wells;
- A north-side regulating reservoir;
- Accelerated irrigation service turn-out replacements;
- Drain water reclamation projects; and
- Main canal and tunnel major improvements.

See note 5 of the Basic Financial Statements for further details.

Less: non-current portion due	$27,678,687			$28,874,189

At December 31, 2017, the District had total long-term debt outstanding of $28.7 million compared to $29.8 million as of December 31, 2016, and $27.7 million as of December 31, 2015. The District refinanced its Certificates of Participation Series 2009 in September of 2016. The District received an "AA" rating from Standard and Poors based on the District's stable and predictable revenue and cash flow streams, good operational and financial practices and policies, very strong debit service coverage, and extremely strong liquidity. Additional information on the District's long-term debt can be found in Note 8 located on pages 44 through 46 of this report.

Economic Factors and Next Year's Budgets and Rates

Regional and statewide water supply issues continue to threaten the District's water rights and ultimately its long-term water supply reliability. As a result of the drought and the potential of the continuation of the drought, the District has challenging times ahead with managing its water supply and financial resources.

A significant portion of the District's costs are fixed, such as debt service on bonds, maintenance, system operations, labor, benefits, and administrative costs. The District has, and will continue to provide the best possible service and manage these costs to the betterment of its District customers.

CAPITAL ASSETS CAPITAL ASSESTS AND DEBT ADMINISTRATION—continued

Economic Factors and Next Year's Budgets and Rates - continued

When preparing the 2018 budget, the District continued to focus on issues that may have an impact on its operations.

- The possible continuation of the drought, and its impact to the District's surface water irrigation customers;
- State and Federal Regulatory requirements and the impacts to the District's pre-1914 water rights;
- The effect of a drought on Tri-Dam Project and Power Authority power generation;
- Deferment of modernization capital projects and replacement projects;
- Increases in personnel-related costs, including full-time salaries, health insurance premiums, retirement contributions, and workers' compensation.
- Additionally, increases in pumping costs, fuel prices and the cost of goods and services all affect the budget's bottom line; and
- Preservation of its designated reserve funds.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Should the reader have any questions regarding the information included in this report or wish to request additional financial information contained in this Comprehensive Annual Financial Report contact either the District's General Manager/Secretary or the Chief Financial Officer/Treasurer, 1205 East F Street, Oakdale, California 95361, (209) 847-0341.

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization and Operations of the Reporting Entity

Oakdale Irrigation District. The District was formed November 1, 1909, pursuant to provisions of the California Water Code. Geographically, the District encompasses parts of San Joaquin and Stanislaus Counties. The Oakdale Irrigation District is a special district governed by an elected five-member Board of Directors. As required by accounting principles generally accepted in the United States of America, these financial statements represent the District and its component unit.

The District's distribution system includes the Goodwin Diversion Dam (Goodwin Dam) on the Stanislaus River below the New Melones Dam, at which water is diverted into the District's main canals, laterals, and pipelines. In addition to such surface water facilities, the District owns and operates deep wells and water reclamation pumps and provides domestic water service. The District provides irrigation water to approximately 2,940 customers and domestic water to 762 customers (inclusive of Improvement Districts' customers). In addition, the District sells water and hydropower on the wholesale market.

The District, along with South San Joaquin Irrigation, ("the Districts") have an operations agreement with the United States Bureau of Reclamation (USBR) that recognizes and confirms the Districts' water rights and requires USBR to make available to the Districts the first 600,000 acre feet of inflow to New Melones Reservoir each year.

Oakdale Irrigation District Financing Corporation. The Oakdale Irrigation District Financing Corporation (the Financing Corporation) was organized in 1988 under Nonprofit Public Benefit Corporation Law, commencing with Section 5110 of the California Corporations Code for aiding the financing of projects for the District. The proceeds of the debt were used to repay a USBR loan. The debt issued by the Financing Corporation was repaid. The Financing Corporation is included in the District's reporting entity as a blended component unit due to the Board of Directors of the District serving as the Board of Directors of the Financing Corporation, the fact that the Financing Corporation is fiscally dependent on the District and the ability of the District to impose its will on the Financing Corporation. The Financing Corporation does not issue separate financial statements.

On March 5, 2009, Certificates of Participation ("Certificates") were executed and delivered pursuant to the provisions of a Trust Agreement, dated as of February 1, 2009, amongst the District, the Financing Corporation, and Union Bank, N.A. to finance certain improvements to the District's water system. The Certificates evidence undivided proportionate interests in installment payments, between the District and the Financing Corporation. On September 8, 2016, these Certificates were refinanced amongst the District and Union Bank, N.A.

Improvement Districts. The District serves as administrator for 20 improvement districts ("Improvement Districts") organized and operated within the District's boundaries. The Improvement Districts were organized under Provision Part 7, Division 11 of the Water Code of the State of California by two-thirds of the landowners in the Improvement District petitioning the District's Board to establish an improvement district to finance operations, maintenance, and repair work within the improvement districts. The District's Board of Directors establishes an improvement district with a board resolution that is filed with the County Recorder's Office. The District administers the Improvement Districts on behalf of the property owners, including the annual assessment levied upon the property owners, investing surplus cash, and paying all expenses of the Improvement Districts from assessments collected. The Improvement Districts have no separate Board of Directors, no staff or other separate activities not administered by the District.

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—continued

A. Organization and Operations of the Reporting Entity - continued

Joint Ventures

Tri-Dam Project. The District and South San Joaquin Irrigation District ("Districts") entered into a joint cooperative agreement on January 21, 1948 called the Tri-Dam Project ("Project"), which consists of a series of irrigation and power dams along the Stanislaus River built and operated by the Project. The Project presently includes Donnells Dam, Tunnel, and Power Plant; Beardsley Dam, Afterbay, and Power Plant; Tulloch Dam, Afterbay, and Power Plant; and the Goodwin Dam and related facilities. The Project's principal activities are the storage and delivery of water to each District and the hydraulic generation of electricity. Effective January 1, 2014, the Project entered into an exclusive power purchase and sale agreement with the City of Santa Clara, California, through its municipal electric utility, Silicon Valley Power. The Project is managed by both Districts through a joint Board of Directors comprised of the five members of each Districts' Board of Directors. The Districts share the cost of the Project, except for Goodwin Dam and related facilities. Each District is responsible for the operations and net position of the Project. Should the Project become insolvent, each District would be legally required to contribute funds to the Project to satisfy Project creditors. The District considers the individual assets of the Project to be 50% owned by each District. As a result, the District has an equity interest in the Project that is recorded as an investment in Tri-Dam Project on the District's statement of net position under GASB Statements No. 14 and 61. Each year the investment in Tri-Dam Project is adjusted to 50% of the net position of the Project, with distributions and undistributed income of the Project recorded as nonoperating revenues and expenses. Separate financial statements are issued by the Project, which are available at P.O. Box 1158, Pinecrest, California 95364-0158 or at www.tridamproject.com.

Tri-Dam Power Authority. Under a joint exercise of powers agreement dated October 14, 1982, between the Districts, the Tri-Dam Power Authority ("the Authority") was formed as a separate legal entity. The Authority was formed for the purpose of exercising common powers in constructing, operating, and maintaining facilities for the generation of electric energy. The agreement will remain in effect until January 1, 2034. The Authority has constructed and operates a hydroelectric power facility on the Stanislaus River with the proceeds of a $62,000,000 bond issue. The Authority has no debt as of November 2016. Pacific Gas and Electric's contract to purchase all of the power produced by this facility, called the Sand Bar Project ended December 31, 2016. On January 1, 2017, the Authority entered into a new power purchase and sale agreement with the City of Santa Clara, California.

The Sand Bar Project power facility became operational in May 1986. The Authority is governed through a Board of Commissioners comprised of the members of each of the Districts' Board of Directors. However, the operations and net position of the Authority belong solely to the Authority as a separate legal entity. Should the Authority become insolvent, the District would not be liable for the Authority debts. Accordingly, the Authority has been excluded from the District's financial statements. Upon termination of the Joint Exercise of Powers Agreement, all assets of the Authority will be distributed to the members in proportion to their respective 50% contribution. Since the District has only a residual equity interest in the Authority, it is not recorded as an equity investment on the District's Statement of Net Position according to GASB Statements No. 14 and 61. Only distributions received from the Authority are recorded as non-operating revenues. The Authority issues separate financial statements, which are available at P.O. Box 1158, Pinecrest, California 95364-0158 or a www.tridamproject.com.

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—continued

Joint Ventures—continued

The San Joaquin Tributaries Authority. The San Joaquin Tributaries Authority (SJTA) was created in November, 2012 under a joint powers agreement between the District, Modesto Irrigation District, South San Joaquin Irrigation District, Turlock Irrigation District and the City and County of San Francisco ("Parties") to develop and facilitate an environment in which the Parties are able to provide water in an efficient manner at a reasonable cost, ensure long-term reliability of the systems, and work with other governmental and public agencies to promote the common welfare of the landowner and water users served by SJTA members. Since the District has only a residual equity interest in the SJTA, it is not recorded as an equity investment on the District's statement of net position according to GASB Statements No. 14 and 61. The District is responsible under this agreement to provide the SJTA a proportionate amount of funds for operating expenses, $200,000 or approximately 7%. The SJTA does not issue separate financial statements.

B. Accounting and Measurement Focus

The District's resources are allocated to and accounted for in these basic financial statements as an enterprise fund type of the proprietary fund group. An enterprise fund is used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other policies. Net Position represents the amounts available for future operations.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. An enterprise fund is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the District are included on the statement of net position. Net Position is segregated into the net investment in capital assets, amounts restricted, and amounts unrestricted. Enterprise fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The District uses the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Water sales are recognized when the water is delivered. When such funds are received, they are recorded as unearned revenues until earned. Earned, but unbilled, water services are accrued as revenue. Domestic water systems are constructed by private developers and then dedicated to the District, which is responsible for their future maintenance. These systems are recorded as capital contributions when they pass inspection and are accepted by the District and the estimated costs are capitalized. Operating revenues and expenses consist of those revenues and expenses that result from the ongoing principal operations of the District. Operating revenues consist primarily of charges for services. Nonoperating revenues and expenses consist of those revenues and expenses that are related to financing and investing types of activities and result from nonexchange transactions or ancillary activities. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources (if any) first, then unrestricted resources as they are needed.

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—continued

C. Financial Reporting

The District's basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as applied to enterprise funds. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District solely operates as a special-purpose government which means it is only engaged in business-type activities; accordingly, activities are reported in the District's proprietary fund.

The District has adopted the following GASB pronouncements in the current year:

In June 2015, the GASB issued Statement No. 74 – *Financial Reporting for Postemployment Benefits Plans Other Than Pension Plans.* The objective of this Statement is to improve the usefulness or information about postemployment benefits other than pensions (other postemployment benefits of OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability.

This Statement replace Statements No. 43—*Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans,* as amended, and No. 57—*OPEB Measurements by Agent Employers and Multiple-Employer Plans.* It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25—*Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans,* as amended, Statement No. 43, and Statement No. 50– *Pension Disclosures.*

In January 2016, the GASB issued Statement No. 80—*Blending Requirements for Certain Component Units—An Amendment of GASB Statement No. 14.* The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate number.

In March 2016, the GASB issued Statement No. 81—*Irrevocable Split-Interest Agreements.* The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.

This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interest in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period.

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—continued

C. Financial Reporting—continued

In March 2016, the GASB issued Statement No. 82—*Pension Issues—An Amendment of GASB Statements No. 67, No. 68, and No. 73.* This Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by the employers to satisfy employee (plan member) contribution requirements.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position

1. Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America, as prescribed by the GASB and the Financial Accounting Standards Board (FASB), requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Cash and Cash Equivalents

The District maintains a cash and investment pool for use by all accounts. Each account's portion of the pool is reflected in the statement of net position as cash and investments. Deposits and investments of Improvement District funds are not part of the pool and are held separately from other District funds. For the purposes of the Statement of Cash Flows, the District considers all highly liquid investments with maturity of three (3) months or less when purchased to be cash equivalents, including the District's investment in the California Local Agency Investment Fund (LAIF) and money market mutual funds.

3. Investments and Investment Policy

The District has adopted an investment policy directing the Treasurer to invest District funds in investments other than LAIF, and in accordance with the investment policy. With the approval of the Board, the Treasurer may utilize a licensed investment broker/dealer to invest the District's surplus funds for the benefit of the District. The Treasurer is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse. The Treasurer shall prepare an investment report for the General Manager and Board of Directors at least quarterly, including a management summary that provides an analysis of the status of the current investment portfolio and transactions made over the last quarter, in accordance with Government Code 53607.

Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position—continued

4. Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset, as follows:

- Level 1 – This valuation level is based on quoted prices in active markets for identical assets. The District does not currently hold any investments valued at this level.
- Level 2 – This valuation level is based on directly observable and indirectly observable inputs. These inputs are derived principally from or corroborated by observable market data through correlation or market-corroborated inputs. The concept of market-corroborated inputs incorporates observable market data such as interest rates and yield curves that are observable at commonly quoted intervals. The District currently holds certificates of deposit investments valued at this level.
- Level 3 – This valuation level is based on unobservable inputs where assumptions are made based on factors such as prepayment rates, probability of defaults, loss severity and other assumptions that are internally generated and cannot be observed in the market. The District does not currently hold any investments valued at this level.

The District's investment in LAIF is valued at amortized cost and therefore the District has determined that it does not meet fair value measurement criteria.

Fair Value Hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs are inputs—other than quoted prices included within level 1—that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

If the fair value of an asset or liability is measured using inputs from more than one level of the fair value hierarchy, the measurements are considered to be based on the lowest priority level input that is significant to the entire measurement.

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position—continued

5. Restricted Assets

Restricted assets at December 31, 2017 represent assessments restricted for Improvement Districts' operations and maintenance expenses.

6. Accounts Receivable

Accounts receivable arise from billings to customers for irrigation and domestic water usage and other related charges. Uncollectible amounts from individual customers are not significant. The District uses the direct write-off method of accounting for uncollectible accounts. Water and other water-related charges that are not paid when due, become delinquent. The District forwards all delinquent water and other water-related charges to both the Stanislaus and San Joaquin Counties to be added as direct assessments to the property tax rolls annually in August each year.

7. Inventory

Inventories of supplies, expendable equipment, and fill dirt are stated at cost and are expensed using the consumption method of accounting. Cost is determined on a first-in, first-out basis.

8. Capital Assets

Purchased capital assets are stated at historical cost or estimated historical cost when original cost is not available. Contributed capital assets are recorded at their estimated fair value at the date of contribution. The District's policy assigns capitalization thresholds as listed below:

Class	Capitalization Threshold
Land	None
Land improvements	$10,000
Buildings	10,000
Building improvements	10,000
Infrastructure	10,000
Infrastructure improvements, new or major repairs	10,000
Leasehold improvements	10,000
Intangible assets	5,000
Furniture, tools, small equipment, computers, etc.	1,000
Heavy equipment, vehicles, and attachments	1,000
Capital leases	1,000
Gates, valves, and turnout structure, new or major repair	None

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position—continued

8. Capital Assets - continued

Donated assets are recorded at their estimated fair value on the date donated and accepted by the Board. Maintenance and repairs are charged to operations when incurred. Costs of assets sold or retired (and the related amounts of accumulated depreciation) are eliminated from the accounts in the year of sale or retirement and the resulting gain or loss included in the operating statement. Depreciation is recorded using the straight-line method over the estimated useful lives of the capital assets.

The District has assigned the useful lives listed below to capital assets.

	Useful Life
Dams and reservoirs	50 - 100 years
Distribution systems	50 - 100 years
Buildings and improvements	50 years
Pumping plants	20 years
Automotive and equipment	3 - 10 years
Office equipment	5 years

9. Deferred Outflows of Resources

Deferred outflows of resources represent the consumption of the District's net position that is applicable to a future reporting period.

10. Compensated Absences

District employees have a vested interest in accrued vacation time. All vacation hours will eventually be either used or paid to the employee by the District. Employees accrue vacation on a monthly basis. The normal situation is that the employees earn and use their current vacation hours with a small portion being accrued or unused each year; as this occurs, the District acquires a future obligation to pay for these unused hours and accrues the liability for such accumulated and unpaid vacation.

Union bargaining employees, upon retirement, are entitled to be paid for unused sick leave at a rate equal to twenty-five percent (25%) of the full value of the first ninety (90) days and thereafter, fifty percent (50%) of unused leave. Union employees are required to contribution up to the first ninety (90) days at the twenty-five percent (25%) to a Retirement Heath Savings Program. Exempt management employees, upon retirement or termination, are entitled to be paid for unused sick leave at a rate equal to fifty percent (50%) of the full value. All other employees, upon retirement or termination, are entitled to be paid for unused sick leave at a rate equal to twenty-five percent (25%) of the full value of the first sixty (60) days and thereafter, fifty percent (50%) of unused leave. The District accrues a liability for such amounts based upon its estimate of future retirements.

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position—continued

10. Compensated Absences - continued

Operation employees, excluding clerical and technical employees, are allowed to accumulate overtime as comp-time and can bank up to a maximum of eighty (80) hours of overtime. Clerical and technical employees are allowed to accumulate overtime as comp-time and can bank up to a maximum of thirty (30) hours of overtime. Confidential employees are allowed to accumulate overtime as comp-time and can bank up to thirty (30) overtime hours on a calendar year basis; all unused comp-time accruals are paid to these employees on December 31 of each year.

As of December 31, 2017 and 2016, the total estimated current and long-term liabilities for all compensated absences were $981 thousand and $887 thousand, respectively. The liability for vacation, sick leave, and overtime comp-time accruals are reported in the statement of net position, and will be liquidated through the water fund.

11. Unearned Revenue

Unearned revenues consisted of customer deposits held at year-end for annexation and other charges not earned at year-end.

12. Pensions

For purpose of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees Retirement System (CalPERS) Plans and additional to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

13. Deferred Inflows of Resources

Deferred inflows of resources represent the acquisition of the District's net position that is applicable to a future reporting period.

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position—continued

14. Long-term Liabilities

Bond premiums and discounts are deferred and amortized over the life of the related debt using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed as incurred.

15. Water Revenue

A water delivery fee rate study was prepared in 2014 to comply with 2009 State Senate Bill SB7x-7 that requires that an irrigation water be priced, at least, in part by the volume used. In October 2014, the District adopted a rate structure inclusive of volumetric measurement, upon the conclusion of a Prop 218 vote, for the first time in its history. The District begin charging irrigation customers, in addition to the $27.81 flat per-acre rate, a $3.24 per acre-foot, per acre charge beginning in 2016. For more information of historical rates refer page 71 of the Supplementary Information.

16. Property Taxes

The District participates in the "Teeter Plan" method of property tax distribution in Stanislaus and San Joaquin Counties ("Counties"), and thus receives 100% of the District's apportionment each fiscal year, eliminating the need for an allowance for uncollectible taxes. The Counties, in return, receive all penalties and interest on the related taxes. Under the Teeter Plan, the Counties remit property taxes to the District based on assessments, not collections, according to the following: 55 percent in December, 40 percent in April, and 5 percent at the end of the fiscal year.

The District experienced a reduction in its property tax revenue as a result of the State of California's Education Revenue Augmentation Fund (ERAF) during the years ended December 31, 2004 and 2005 of approximately $2.2 million. In November 2004, California voters approved Proposition 1A which prohibits the State from reducing the share of property tax revenues going to cities, counties, and special districts and shifting those shares to the schools or any other non-local government. However, under specific conditions, the State may suspend the protection provisions of Proposition 1A. The State may not enact such a suspension more than twice in any ten year period and may do so if: (1) the State's fiscal year VLF Backfill Gap Loan has been repaid; or (2) any previous borrowing has been paid. If the State's current economic crisis continues there is likelihood that the District's property taxes could continue to be reduced in the future.

17. Budget Principles

The District adopts an annual budget typically in December each year to take effect January 1 the following year. The budget is subject to supplemental appropriations throughout its term in order to provide flexibility to meet changing needs and conditions. The Board approves all budget addition appropriations. Budget integration is employed as a management control device.

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position—continued

18. Net Position

Net Position is the excess of all the District's assets and deferred outflows of resources over all it liabilities and deferred inflows of resources. In the financial statements, fund net position is reported in the three categories as follows:

- Net investment in capital assets – This category of net position reports the net book value of capital assets used in District operations, including construction-in-progress, net of related accumulated depreciation and debt used to acquire or construct these assets;

- Restricted net position - This category represents external restrictions imposed by creditors, grantors, contributors, laws or regulations of other governments, and restrictions imposed by law through constitutional provisions or enabling legislation. The purpose of the restriction is reported on the face of the statement of net position; and

- Unrestricted net position – Unrestricted net position represents all other assets net of related liabilities available for use by the District. This category also includes the assets related to the District's investment in the Tri-Dam Project.

Designations of unrestricted net position are imposed by the Board of Directors to reflect future spending plans or concerns about the availability of future resources. Designations may be modified, amended, or removed by Board action.

19. Reclassification:

The District has reclassified certain prior year information to conform with current year presentation.

NOTE 2: CASH AND INVESTMENTS

Cash and investments consisted of the following at December 31, as classified in the Statements of Net Position:

	2017	2016
Cash and cash equivalents		
Cash on hand	$ 420	$ 420
Deposits with financial institutions	2,585,007	5,202,306
Deposits with financial institutions - restricted	1,252,103	1,088,292
Subtotal	3,837,530	6,291,018
Cash and cash equivalents - other		
Money market mutual fund	3,641,245	54,648
Deposits in Local Agency Investment Fund (LAIF)	161,461	160,290
Total unrestricted cash and cash equivalents	3,802,706	214,938
Total cash and cash equivalents	7,640,236	6,505,956
Investments		
Investments held by Union Bank	59,271,760	53,145,663
Total investments	59,271,760	53,145,663
Total cash and investments	$ 66,911,996	$ 59,651,619

Cash and investments at December 31, consisted of the following:

	2017	2016
Cash and deposits		
Cash on hand	$ 420	$ 420
Deposits with financial institutions	7,478,355	6,345,246
Total cash and deposits	7,478,775	6,345,666
Investments		
U.S. Agency Securities	32,415,996	29,572,708
Commercial paper	12,229,785	13,164,843
Medium term corporate notes	14,625,979	10,408,112
Local Agency Investment Fund (LAIF)	161,461	160,290
Total investments	59,433,221	53,305,953
Total cash and investments	$ 66,911,996	$ 59,651,619

Investments Authorized by the District’s Investment Policy

Investments are reported at fair value. The District annually adopts its Investment Policy in accordance with the guidelines stated by California Government Code (“CGC”) Section 53600, et. seq. The District’s Investment Policy only authorizes selection of investments based on safety, liquidity, and yield, authorizing investments in the Local Agency Investment Fund (LAIF) administered by the State of California. Except for CGC section 53601 prohibiting investments in “inverse floaters,” “range notes,” and “interest only strips,” the District’s investment policy does not contain any specific provisions intended to limit the District’s exposure to interest rate risk, credit risk, and concentration of credit risk. All funds are invested by the District’s management as directed by its Finance Committee and in accordance with its Investment Policy. The following table identifies the investment types that are authorized for the District by the CGC (or the District’s Investment Policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk.

NOTE 2: CASH AND INVESTMENTS—continued

Investments Authorized by the District's Investment Policy—continued

During the year ended December 31, 2017 and 2016, the District's permissible investments included the following instruments:

Authorized Investment Type	Maximum Maturity	Minimum Rating	Maximum % of Portfolio	Maximum Investment in One Issuer
Local agency bonds	5 years	N/A	None	None
U.S. Treasury obligations	5 years	N/A	None	None
U.S. agency securities	5 years	N/A	None	None
California local agency debt	5 years	N/A	None	None
Banker's acceptances	180 days	A-1/P-1/F1	40%	30%
Commercial paper	270 days	A-1/P-1/F1	25%	10%
Negotiable certificates and time deposits	5 years	N/A	30%	None
Repurchase agreements	92 days	N/A	10%	$500K
Medium term corporate notes	5 years	A	30%	None
Money market mutual funds	N/A	AAA/Aaa	20%	10%
Local Agency Investment Fund (LAIF)	N/A	N/A	None	None

Investments authorized by the District's debt agreement includes any investment specified in the table above as well as investment agreements, guaranteed investment contracts ("GIC"), forward purchase agreements, and reserve fund agreements. However, the District's debt agreement requires local agency bonds to have an initial minimum rating in one of the two highest categories assigned by a national rating agency, requires medium term corporate notes to have an initial minimum rating of AAA, and allows a maximum maturity of 30 days for repurchase agreements.

The District complied with the provisions of the CGC pertaining to the types of investments held, the institutions in which deposits were made and the security requirements, with the exception of the investment in the Highmark Treasury Plus money market mutual fund exceeding the 10% maximum investment in one issuer and 20% maximum percentage of the portfolio limits above. The District will continue to monitor compliance with applicable statutes pertaining to public deposits and investments.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates that will adversely affect the fair value of an investment. Typically, the longer the maturity of the investment the greater the sensitivity of its fair value to changes in market interest rates. The District's Investment Policy does not contain any provision limiting interest rate risk other than what is specified in the CGC.

NOTE 2: CASH AND INVESTMENTS - continued

Disclosures Relating to Interest Rate Risk - continued

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the below tables that shows the distribution of the District's investments by maturity or earliest call dates as of December 31:

		2017
		Maturities
Type of Investment	Total	12 Months or Less
U.S. agency securities	$ 32,415,996	$ 32,415,996
Commercial paper	12,229,785	12,229,785

Total	$ 59,433,221	$ 59,433,221

		2016	
		Maturities	
Type of Investment	Total	12 Months or Less	13 - 24 Months
U.S. agency securities	$ 29,572,708	$ 29,572,708	$ -
Commercial paper	13,164,843	13,164,843	-
Medium term corporate notes	10,408,112	8,911,517	1,496,595
Local Agency Investment Fund	160,290	160,290	-
Total	$ 53,305,953	$ 51,809,358	$ 1,496,595

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the CGC or the District's Investment Policy, and the actual ratings as of year-end for each investment type as of December 31:

		2017			
			Rating as of Year End		
Investment Type	Minimum Legal Rating	Total	A-1+ / AA / AA+ / AA-	A-1 / A+ / A / A-	Unrated
U.S. agency securities	N/A	$ 32,415,996	$ 32,415,996	$ -	$ -
Commercial paper	A-1+	12,229,785	4,991,486	7,238,299	-
Medium term corporate notes	A	14,625,979	2,599,820	12,026,159	-
Local Agency Investment Fund	N/A	161,461	-	-	161,461
Total		$ 59,433,221	$ 40,007,302	$ 19,264,458	$ 161,461

		2016			
			Rating as of Year End		
Investment Type	Minimum Legal Rating	Total	A-1+ / AA / AA+ / AA-	A-1 / A+ / A / A-	Unrated
U.S. agency securities	N/A	$ 29,572,708	$ 29,572,708	$ -	$ -
Commercial paper	A-1+	13,164,843	10,667,326	2,497,517	-
Medium term corporate notes	A	10,408,112	5,597,253	4,810,859	-
Local Agency Investment Fund	N/A	160,290	-	-	160,290
Total		$ 53,305,953	$ 45,837,287	$ 7,308,376	$ 160,290

NOTE 2: CASH AND INVESTMENTS—continued

Concentration of Credit Risk

The District's Investment Policy contains no limitations on the amount that can be invested in any one issuer beyond that stipulation by the CGC. The CGC limits the amount that may be invested in any one issue, with the exception of the U.S. Treasury obligations, mutual funds, and external investments pools. Investments with one issuer exceeding 5% of total investments at December 31, 2017, included investments in the Federal Home Loan Banks in the amount of $29,31,418,176. Investments with one issuer exceeding 5% of included investments at December 31, 2016 included investments in the Federal Home Loan Banks in the amount of $29,572,708.

Custodial Credit Risk

Custodial Credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The CGC and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The CGC requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes that have a value of 150% of the secured public deposits.

At December 31, 2017 and 2016, the carrying amount of the District's deposits (net of cash on hand amounting to $420) was $3,837,110 and $6,290,598, and the balance in financial institutions was $4,016,132 and $6,381,667, respectively. Of the balance in financial institutions at December 31, 2017 and 2016, $1,000,000, and $1,000,000, respectively, was covered by federal depository insurance, and $3,016,132 and $5,381,667, respectively, was collateralized as required by State Law (CGC Section 53630), by the pledging financial institution with assets held in a common pool for the District and other governmental agencies, but not in the name of the District.

As of December 31, 2017 and 2016, all of the District's U.S. Agency securities, commercial paper and medium term corporate notes were held by the same broker-dealer (counterparty) that was used by the District to buy the securities.

NOTE 2: CASH AND INVESTMENTS—continued

Investment in State Investment Pool

LAIF is stated at fair value. The LAIF is a special fund of the California State Treasury through which local governments may pool investments. The total fair value amount invested by all public agencies in LAIF is $74,234,890,164 managed by the State Treasurer. Of that amount, 92.82% is invested in non-derivative financial products, and 7.18% in structured notes and medium-term asset backed securities. The Local Agency Investment Advisory Board ("Board") has oversight responsibility for LAIF. The Board consists of five members as designated by State Statue. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. The weighted average maturity of investments held by LAIF was 186 and 171 days at December 31, 2017 and 2016, respectively.

Current Portion	(746,728)			(769,130)
Long-term Portion	$ 15,503,254			$ 14,734,124

Trinitas LLC Annexation Agreement

The District accepted the annexation of 7,274.25 acres of land into the District in August 2013. The annexation fee of $24,684,585 will be paid in equal installments of $1,234,227 per year at 3% per annum from September 2013 through September 2032. The principal amount under the annexation agreements ("agreements") are reported as the land annexed was organized under nine separate limited liability companies (LLC). The District is not required to deliver water to the annexed land and may terminate the agreements if annexation fees become delinquent as defined in the agreements. Future payments to be received under the agreements are shown below at December 31, 2017:

	2017		
	Principal	Interest	Total
For the year ending December 31,			
2018	$ 792,203	$ 442,024	$ 1,234,227
2019	815,970	418,258	1,234,228

Total	$ 14,734,124	$ 3,779,285	$ 18,513,409
Less: current portion due	(792,203)		
Long-term portion due	$ 13,941,921		

NOTE 3: ANNEXATION FEES RECEIVABLE - continued

Naraghi Annexation Agreement

In 2017, the District accepted the annexation of 220 acres of land into the District. The annexation fees of $552,788 fees were financed by the District to be paid in equal installments per year at 3% per annum from September 2017 through September 2036. The District is not required to deliver water to the annexed land and may terminate the agreements if annexation fees become delinquent as defined in the agreements. Future payments to be received under this agreement is shown below at December 31, 2017:

	2017		
	Principal	Interest	Total
For the year ending December 31,			
2018	$ 20,572	$ 15,501	$ 36,074
2019	21,190	14,884	36,074

Total	$ 1,027,040	$ 335,291	$ 1,362,331
Less: current portion due	(40,890)		
Long-term portion due	$ 986,149		

NOTE 3: ANNEXATION FEES RECEIVABLE - continued

Paddock Annexation

In 2017, the District accepted the annexation of 25.04 acres of land into the District. The annexation fees of $45,852 fees were financed by the District to be paid in equal installments per year at 3% per annum from September 2017 through September 2035. The District is not required to deliver water to the annexed land and may terminate the agreements if annexation fees become delinquent as defined in the agreements. Future payments to be received under this agreement is shown below at December 31, 2017:

	2017		
	Principal	Interest	Total
For the year ending December 31,			
2018	$ 1,768	$ 1,226	$ 2,993
2019	1,820	1,173	2,992
2020	1,874	1,118	2,992
2021	1,930	1,062	2,992
2022	1,988	1,004	2,992
2023-2027	10,873	4,088	14,961
2028-2032	12,605	2,356	14,961
2033-2035	7,994	469	8,463
Total	$ 40,853	$ 12,495	$ 53,347
Less: current portion due	(1,768)		
Long-term portion due	$ 39,085		

NOTE 4: DUE FROM OTHER GOVERNMENTAL AGENCIES

Due from other governmental agencies as of December 31, consisted of:

Agency	2017	2016
Department of Water Resources	$ -	$ 1,000,000
San-Luis Delta Mendota Water Authority	-	1,000,000
Stanislaus County	613,164	631,966
San Joaquin County	108,575	102,547
South San Joaquin Irrigation District	61,140	58,515
Others	103,902	102,252
Total	886,781	2,895,280
Less: current portion	(785,306)	(2,793,805)
Long-term portion due	$ 101,475	$ 101,475

Current amounts due from other governmental agencies at December 31, 2017 of $785 thousand consisted mainly of $722 thousand due from property tax appropriations, and $61 thousand from South San Joaquin Irrigation District for water rights fees, and $2 thousand from the State of California mandated costs claims program. Current amounts due from other governmental agencies at December 31, 2016 of $2.8 million consisted mainly of $2.0 million due from San Luis Delta Mendota and U.S. Department of Water Resources for a 2016 water release, $735 thousand due from property tax appropriations, and $59 thousand due from South San Joaquin Irrigation District for water rights fees. Non-current amounts due from other governments at December 31, 2017 and 2016 was $101 thousand due from the State of California for reimbursement of the mandated costs claims program.

NOTE 5: CAPITAL ASSETS

NOTE 6: PRIOR PERIOD ADJUSTMENT

Improvement Districts

In 2017, the District determined that the Improvement Districts' are subject to the provisions of GASB 61. As a result, the District recorded a prior period adjustment to net position of $839,068.

Net Pension Liability

In 2015, the District implemented GASB pronouncements 68 and 71 to recognize its proportionate share of the net pension liability. In 2016, the District determined that the net pension liability, deferred outflows of resources and deferred inflows of resources related to the 2015 implementation of GASB pronouncements 68 and 71, were overstated. As a result, the District has recorded a prior period adjustment to net position of $432,617.

The effect of the above changes is summarized as follows:

Net position at January 1, 2015, as previously reported		$ 146,090,990
Change in net position at December 31, 2015, as previously reported	$ 1,250,467	
Effect of adjustment to record Improvement District' operating charges, net	839,068	2,089,535
Net position at December 31, 2015, as restated		148,180,525
Change in net position at December 31, 2016, as restated	21,541,006	
Effect of adjustment to record net pension liability	362	
Effect of adjustment to record deferred pension outflows	(325,769)	
Effect of adjustment to record deferred pension inflows	(107,210)	21,108,389
Net position at December 31, 2016, as restated		$ 169,288,914

NOTE 7: COMPENSATED ABSENCES

Compensated absences comprise of unpaid paid time off that accrues when benefits are fully vested and are determined annually. Compensated absences turn-over each year, therefore, the compensated absence balance of the District is recorded as a liability on the Statement of Net Position.

	Balance 2016	Earned	Taken	Balance 2017	Due Within One Year	Due in More Than One Year
Compensated absences	$ 887,069	$563,298	$ (468,998)	$ 981,369	$ 518,559	$ 462,810

	Balance 2015	Earned	Taken	Balance 2016	Due Within One Year	Due in More Than One Year
Compensated absences	$ 859,637	$ 314,513	$ (287,081)	$ 887,069	$ 310,987	$ 576,082

NOTE 8: LONG-TERM LIABILITIES

Long-Term Liabilities

Long-term liability activity for the year ended December 31, 2017, consisted of the following:

Oakdale Irrigation District Certificates of Participation (Water Facilities Project) Series 2009

On March 5, 2009, the District issued the Certificates of Participation (Water Facilities Project) Series 2009 ("2009 Certificates") in the amount of $32,145,000. The proceeds are being used to finance acquisition and construction of certain water system improvements and repairs to the District's existing facilities as described in the debt agreement. The 2009 Certificates are secured by a lien on the net revenues of the District. The District is required to collect net revenues equal to 110% of the debt service payments on this issuance and all other parity debt payable from the District's net revenues. Annual principal payments ranging from $530,000 to $2,035,000 began on August 1, 2010 and will continue through August 1, 2039. Semi-annual interest payments ranging from $55,963 to $808,954 are due on February 1 and August 1 through August 1, 2039. Interest rates range from 3.1% to 5.5%. These Certificates were refunded in September 2016.

Oakdale Irrigation District Certificates of Participation Refunding Series 2016A

On September 8, 2016, the District issued the Certificates of Participation Revenue Refunding Bond Series 2016A ("2016 Certificates") in the amount of $26,165,000. The proceeds were used to provide funds to refinance the 2009 Certificates and are considered defeased. The amount is the difference between the net carrying amount of the old debt and the reacquisition price of the new debt is treated as a deferred outflow of resources in the amounts of $3,603,277 and $3,439,491 as of December 31, 2017 and 2016, respectively. The amount is amortized over the new life of the new debt. The District was not required to fund a debt service reserve fund for these bonds. The 2009 Certificates are secured by a lien on the net revenues of the District. The District will fix and prescribe rates and charges for the Water Service which are reasonably expected to be at least sufficient to yield during each fiscal year net revenues equal to 110% of debt service on the bonds and parity obligations for such fiscal year. Annual principal payments ranging from $765,000 to $1,795,000 began on February 1, 2017, and will continue through August 1, 2038. Semi-annual interest payments ranging from $26,925 to $554,200 are due on February 1 and August 1 through August 1, 2038. Interest rates range from 3.0% to 5.0%.

NOTE 8: LONG-TERM LIABILITIES—continued

Oakdale Irrigation District Certificates of Participation Refunding Series 2016A - continued

The annual requirements to amortize the outstanding business-type activities debt as of December 31, 2017, are as follows:

	Certificates of Participation - Series 2016A		
Year ending December 31,	Principal	Interest	Total
2018	$ 765,000	$ 1,081,850	$ 1,846,850
2019	795,000	1,051,250	1,846,250
2020	830,000	1,019,450	1,849,450
2021	865,000	986,250	1,851,250
2022	880,000	968,950	1,848,950
2023-2027	4,980,000	4,259,150	9,239,150
2028-2032	6,330,000	2,915,750	9,245,750
2033-2037	8,040,000	1,201,900	9,241,900
2038	1,795,000	53,850	1,848,850
Total	25,280,000	$ 13,538,400	$ 38,818,400
Less current portion	(765,000)		
Premium on issued debt	3,430,817		
Total non-current	$ 27,945,817		

Pledged Revenues

The District has pledged future net revenues of the District to repay its 2016 Certificates in the original amount of $26,165,000. Proceeds of the Certificates were used to refinance the 2009 Series Certificates. The 2016 Certificates are payable from the net revenues of the District and are payable through August 2039. Annual principal and interest payments on the Certificates are expected to require approximately 25% of net revenues. Total principal and interest remaining to be paid on the 2016 Certificates was $38,818,400 at December 31, 2017, and $40,697,881 at December 31, 2016. At December 31, 2017 and 2016, total net revenues were $17,354,378 and $24,965,628, respectively.

The 2016 Certificates, above, contain the requirement to fix and prescribe rates and charges for the water service which are reasonably expected to be at least sufficient to yield during each fiscal year net revenues equal to 110% of debt service on the bonds and parity obligations for such fiscal year. The net revenues (as defined) are required to be at least 1.10 times the sum of the installment payments of interest and principal on the outstanding Certificates and any parity debt.

The following is a calculation of the required coverage ratio as of December 31:

	2017	2016
Revenues	$ 28,171,832	$ 35,827,340
Less: Maintenance and operation expenses (as defined)	10,125,454	10,861,712
Net revenues	18,046,378	24,965,628
Interest and principal payments (as defined)	2,148,288	2,148,888
Coverage ratio computed	840%	1162%
Required rate	110%	110%

NOTE 8: LONG-TERM LIABILITIES—continued

Pledged Revenues - continued

The Installment Purchase Contract ("Contract") allows a rate stabilization fund to be established by Resolution by the Board and release of funds by Resolution of the Board and considered "revenues" in the required coverage ratio calculation. The above table includes the District's February and August 2017, and February and August 2016 payment obligations of $1,879,481 and $2,148,888, respectively. These amounts were placed into an escrow account from which the principal and interest was used to make the scheduled principal and interest payment on the refunded Certificates. The Contract provides that the District may defease the payment of all or a portion of Installment Payments (as defined in the Contract) by a deposit with the Trustee, under an escrow agreement, of cash in an amount that is sufficient to pay such unpaid Installment Payments, including the principal and interest components.

Financing Corporation Loans Payable

The Financing Corporation entered into agreements to accept proceeds of loans in the amounts of $475,000 from the United States Department of Agriculture and $475,000 from a local bank to finance certain improvements within Improvement District No. 52. The loans are payable solely from the revenues of Improvement District No. 52. Neither the District nor the Financing Corporation is liable for the repayment of these loans and are only acting as agents for Improvement District No. 52. Consequently, the loans are not recorded on the District's statement of net position.

Borrow Site Purchase Agreement

The District entered into two agreements with District landowners in 2014 to purchase and store borrow material to be used for projects. These agreements were paid in full at December 31, 2016.

Arbitrage

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with investments of all tax-exempt bond proceeds at an interest yield greater than the interest paid to the bond holders. Generally, all interest paid to bond holders can be retroactive if applicable rebates are not reported and paid to the Internal Revenue Service at least every five years. The District performed calculations of excess investments earnings on various investments and financings, and determined there was no arbitrage liability at December 31, 2017 and 2016.

NOTE 9: DEFINED BENEFIT PENSION PLAN

Plan Description

All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan) administered by the California Public Employees' Retirement System (CalPERS). The Plan consists of a miscellaneous risk pool and a safety risk pool, which are comprised of individual employer miscellaneous and safety plans, respectively. Benefit provisions under the Plan are established by State statute and the District's resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website or may be obtained from their executive office at 400 P Street, Sacramento, California 95814.

NOTE 9: DEFINED BENEFIT PENSION PLAN—continued

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

On September 12, 2012, the California Governor signed the California Public Employees' Pension Reform Act of 2013 (PEPRA) into law. PEPRA took effect January 1, 2013. The new legislation closed the District's CalPERS 2.0% at 60 Risk Pool Retirement Plan to new employee entrants effective December 31, 2012. For employees hired prior to January 1, 2013, who are current members of CalPERS or a reciprocal agency as of December 31, 2012 and have not been separated from service from such agency for more than six months, the retirement benefit is 2.0% @ 60 years of age; highest single year of compensation. All other employees hired after January 1, 2013, are eligible for the District's CalPERS 2.0% at 62 Retirement Plan under PEPRA.

The Plan's provision and benefits in effect at June 30, 2017 and 2016 are summarized as follows:

	2017		2016	
Hire Date	Miscellaneous Plan (Prior to January 1, 2013)	PEPRA Miscellaneous Plan (On or after January 1, 2013)	Miscellaneous Plan (Prior to January 1, 2013)	PEPRA Miscellaneous Plan (On or after January 1, 2013)
Benefits formula (at full retirement)	2% @ 60	2% @ 62	2% @ 60	2% @ 62
Benefit vesting schedule	5 year service	5 year service	5 year service	5 year service
Benefit payments	monthly for life	monthly for life	monthly for life	monthly for life
Retirement age	50 - 63	52 - 67	50 - 63	52 - 67
Monthly benefits, as a % of eligible compensation	1.092%-2.418%	1.092%-2.418%	1.092%-2.418%	1.092%-2.418%
Required employee contribution rates	7.000%	6.250%	7.000%	6.250%
Required employer contribution rates	7.200%	6.533%	7.159%	6.555%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on July 1, following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30, by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

As of the year ended December 31 2017 and 2016, the contributions recognized as part of pension expense for the Plan was as follows:

	2017			2016		
	Miscellaneous Plan	PEPRA Miscellaneous Plan	Total	Miscellaneous Plan	PEPRA Miscellaneous Plan	Total
Contributions - Employer	$ 236,669	$ 35,808	$ 272,477	$ 317,406	$ 61,943	$ 379,349

NOTE 9: DEFINED BENEFIT PENSION PLAN—continued

Net Pension Liability

As of December 31, 2017 and 2016, the District reported net pension liabilities for its proportionate share of the net pension liability of the Plan as follows:

	2017	2016
Proportionate share of net pension liability	$ 4,092,625	$ 3,368,866

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability for the miscellaneous risk pool. As of December 31, 2017, the net pension liability of the Plan is measured as of June 30, 2017 and 2016 (the measurement dates), respectively. The total pension liability for the Plan's miscellaneous risk pool used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 and 2015 (the valuation dates), rolled forward to June 30, 2017 and 2016, respectively, using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability for the Plan's miscellaneous risk pool as of the measurement dates June 30, 2017 and 2016, was as follows:

	Proportionate Share
Proportionate - June 30, 2015	0.03347%
Increase in proportion	0.00546%
Proportionate - June 30, 2016	0.03893%
Increase in proportion	0.00234%
Proportionate - June 30, 2017	0.04127%

Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended December 31, 2017 and 2016, the District recognized pension expense (credit) of $310,625 and ($113,891), respectively.

As of December 31, 2017 and 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2017		2016	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	$ 296,368		$ 272,477	
Differences between actual and expected experience	-	$ (89,193)	10,449	
Changes in assumptions	767,088	-	-	$ (128,246)
Differences between the employer's contributions and the employer's proportionate share of contributions	-	(274,825)	-	(184,008)
Adjustment due to differences in proportions of the net pension liability	-	(96,170)	-	(260,211)
Net differences between projected and actual earnings on plan investments	187,804		667,477	-
Total	$ 1,251,260	$ (460,188)	$ 950,403	$ (572,465)

NOTE 9: DEFINED BENEFIT PENSION PLAN—continued

Deferred Outflows/Inflows of Resources Related to Pensions - continued

As of December 31, 2017 and 2016, the District reported $296,368 and 272,477, as deferred outflows of resources related to pension contributions subsequent to the measurement date June 30, 2017 and 2016, and will be recognized as a reduction of the net pension liability for the year ended December 31, 2018 and 2017.

At December 31, 2017, amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year Ended December 31	2017
2018	$ (52,559)
2019	416,757
2020	227,960
2021	(97,454)
2022	494,704
Thereafter	-

Actuarial Assumptions

The total pension liability was determined by rolling forward the total pension liability determined in the June 30, 2016, actuarial accounting valuation to June 30, 2017. The June 30, 2017, total pension liability was based on the following actuarial assumptions and methods:

Valuation Date	June 30, 2016
Measurement Date	June 30, 2017
Actuarial Cost Method	Entry Age Normal in accordance with the requirements of GASB Statement No. 68
Actuarial Assumptions	
Discount Rate	7.15%
Inflation	2.75%
Salary increases	Varies by Entry Age and Service
Projected Salary Increase	3.2% - 12.3% (1)
Mortality Rate Table*	Derived using CalPERS' Membership Data for all Funds
Post Retirement Benefits	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter

* The mortality table used above was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the April 2014 Experience Study report (based on CalPERS demographic data from 1997 to 2011) available online at https://www.calpers.ca.gov/docs/forms-publications/calpers-experience-study2014.pdf.

Other significant actuarial assumptions used in the June 30, 2016, valuations were based on the results of the actuarial experience study for the period from 1997 to 2011.

NOTE 9: DEFINED BENEFIT PENSION PLAN—continued

Discount Rate

The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The expected real rates of return by assets can be found in CalPERS' Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2017.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

As of December 31, 2017 and 2016, the target allocation and the long-term expected real rate of return by asset class were as follows:

	2017			2016		
Asset Class	New Strategic Allocation	Real Return Years 1 - 10[1]	Real Return 11[+2]	New Strategic Allocation	Real Return Years 1 - 10[1]	Real Return 11[+2]
Global Equity	47.0%	4.90%	5.38%	51.0%	5.25%	5.71%
Global Debt Securities	19.0%	0.80%	2.27%	20.0%	0.99%	2.43%
Inflation Assets	6.0%	0.60%	1.39%	6.0%	0.45%	3.36%
Private Equity	12.0%	6.60%	6.63%	10.0%	6.83%	6.95%
Real Estate	11.0%	2.80%	5.21%	10.0%	4.50%	5.13%
Infrastructure and Forestland	3.0%	3.90%	5.36%	2.0%	4.50%	5.09%
Liquidity	2.0%	-0.40%	-0.90%	1.0%	-0.55%	-1.05%
Total	100.0%			100.0%		

(1) An expected inflation of 2.5% used for this period.

(2) An expected inflation of 3.0% used for this period.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage point lower or one-percentage point higher than the current rate.

As of December 31, 2017 and 2016, the District's net pension liability at the current discount rate, using a discount rate that is one-percentage point lower, and using a discount rate that is one-percentage point higher, is as follows:

	2017			2016		
	Discount Rate - 1% 6.15%	Current Discount Rate - 1% 7.15%	Discount Rate - 1% 8.15%	Discount Rate - 1% 6.65%	Current Discount Rate - 1% 7.65%	Discount Rate - 1% 8.65%
District's Net Pension Liability	$6,452,630	$4,092,625	$2,223,439	$4,978,717	$3,368,866	$1,722,008

NOTE 9: DEFINED BENEFIT PENSION PLAN—continued

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports. See page 62 for the Required Supplementary Information.

Payable to the Pension Plan

At December 31, 2017 and 2016, the District reported $0 in payables for the outstanding amount of contribution to the pension plan.

NOTE 10: NET POSITION

At December 31, 2017 and 2016, the District's net position consisted of the following:

	2017	2016
Net investment in capital assets:		
Capital assets, net	$ 86,945,511	$ 80,492,485
Certificate of participation, current	(765,000)	(885,000)
Certificate of participation, non-current	(24,515,000)	(25,280,000)
Total net investment in capital assets	61,665,511	54,327,485
Restricted net position		
Cash and cash equivalents-restricted for Improvement Districts	1,252,103	1,088,292
Total restricted net position	1,252,103	1,088,292
Unrestricted net position:		
Non-spendable net position:		
Inventory of materials and supplies	632,648	716,579
Prepaid expenses	411,543	418,569
Total non-spendable net position	1,044,191	1,135,148
Spendable net position designated for the following purposes:		
Main Canal/Tunnel Improvement Reserve	20,064,000	8,064,000
Capital Replacement/Improvement Reserve Fund	18,000,000	18,000,000
Debt Service Reserve	6,000,000	-
Operating Reserve Fund	3,738,000	3,738,000
Rate-Stabilization Reseve Fund	2,388,000	1,388,000
Rural Water Replacement/Improvement Reserve Fund	763,165	$753,343
Vehicle and Equipment Replacment Reserve Fund	492,366	$486,966
Building and Facilities Reserve Fund	475,000	475,000
Employee Compensated Absences Reserve Fund	179,084	179,084
Total spendable net position - designated	52,099,615	33,084,393
Spendable net position - undesignated		
Unrestricted	67,409,146	79,653,596
Total spendable net position	67,409,146	79,653,596
Total unrestricted net position	120,552,952	113,873,137
Total net position	$ 183,470,566	$ 169,288,914

NOTE 11: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts of, damages to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The District is a founding member of the Association of California Water Agencies Joint Powers Insurance Authority (ACWA JPIA). The ACWA JPIA is a risk-pooling self-insurance authority, created under the provisions of the California Government Code Sections 6500 et. seq. The purpose of the ACWA JPIA is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage.

The District pays an annual premium to ACWA JPIA for its general liability and auto, and property insurance coverage. The ACWA JPIA purchases specific occurrence excess insurance from commercial excess, reinsurance carriers, or other pooling agencies for the ACWA JPIA's liability, and property programs. The arrangement with ACWA JPIA is in substance a transfer of pooling (sharing) of risks among the participants in the ACWA JPIA's programs.

For ACWA JPIA's public liability premiums for coverage are based upon the experience of participating members. District liabilities for claims not covered by ACWA JPIA programs are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Because actual claim liabilities depend on complex factors such as changes in legal doctrines, damage awards, and other factors, the process used in computing claim liabilities does not necessarily result in an exact amount. Such uncovered claim liabilities are re-evaluated periodically to take into account recently settled claims, claim frequency, and other economic and social factors. Settled claims have not exceeded insurance coverage in the past three years and there have been no reductions in insurance coverage during the year.

The District's self-insured retention and coverage are as follows:

Coverage	ACWA/JPIA	Commercial Insurance	Self-Insured Retention
General and auto liability (includes public official liability)	$ 2,000,000	$ 58,000,000	$ 25,000
Property damage	75,000	150,000,000	1,000
Fidelity	100,000	1,000,000	1,000

Coverage	SDRMA
Workers Compensation	Statutory

The District accrues a liability for deductibles on incurred claims under GASB Statement No. 10. The District considers incurred but not reported claims to be immaterial and does not accrue an estimate of such claims payable. The majority of the District's claims liability represents short-term deductibles payable, resulting in the claims liability being presented as a current liability.

Changes to the claims payable liabilities were:

	For the Year Ended December 31, 2017	2016
Claims payable, January 1	$ 10	$ 3,750
Incurred claims; provision for event of current year	(2,800)	10
Claims paid	(10)	(3,750)
Claims payable, December 31	$ (2,800)	$ 10

NOTE 11: RISK MANAGEMENT - continued

The District contracts up to the statutory workers' compensation limits and $5 million of employers' liability with Special District's Risk Management Authority (SDRMA), which has no self-insured retention obligation. Complete separate audited financial statements for the ACWA JPIA may be obtained at 5620 Birdcage Street, Suite 200, Citrus Heights, California 95610- 7632 or www.acwajpia.com. Complete separate audited financial statements for the SDRMA may be obtained at 1112 I Street, Suite 300, Sacramento, California 95814-2865 or www.sdrma.org.

NOTE 12: INVESTMENT IN TRI-DAM PROJECT

As discussed in the preceding notes, the District's financial statements include its equity in the undistributed net earnings in the Tri-Dam Project (Project) since its inception. The summary of financial information on the Project can be found below. Complete financial statements for the Project can be obtained at the Project's administrative offices located at 31885 Old Strawberry Road, Strawberry, California 95375.

Tri-Dam Project Statement of Net Position

	At December 31,	
	2017	2016
Assets and deferred outflows of resources		
Cash and investments	$ 19,040,303	$ 25,379,155
Other current assets	4,115,931	3,101,048
Total current assets	23,156,234	28,480,203
Noncurrent Assets		
Long-term investments	8,795,327	-
Property and equipment, net	64,082,991	62,948,188
Total assets	96,034,552	91,428,391
Deferred outflows of resources		
Pensions	1,498,764	1,277,349
Total assets and deferred outflows of resources	$ 97,533,316	$ 92,705,740
Liabilities deferred inflows of resources, and net position		
Current liabilities	$ 1,138,336	$ 651,086
Long-term liabilities	6,164,420	5,302,736
Total liabilities	7,302,756	5,953,822
Deferred inflows of resources		
Pensions	277,700	296,517
Net Position		
Net investment in capital assets	64,082,991	62,948,188
Unrestricted	25,869,869	23,507,213
Total net position	89,952,860	86,455,401
Total liabilities, deferred inflows of resources, and net position	$ 97,533,316	$ 92,705,740

NOTE 12: INVESTMENT IN TRI-DAM PROJECT - continued

Tri-Dam Project Statement of Revenues, Expenses, and Change in Net Position

	For the Years Ended December 31, 2017	2016
Operating revenues	$ 48,458,414	$ 33,800,302
Operating expenses		
Expenses	8,952,319	5,510,132
Depreciation	1,907,147	2,491,781
Total operating expenses	10,859,466	8,001,913
Net income from operations	37,598,948	25,798,389
Nonoperating revenues (expenses)	(1,328,489)	(836,655)
Change in net positon	36,270,459	24,961,734
Net position, beginning of year as restated	86,455,401	77,411,843
Less: Distributions to member districts	(32,773,000)	(15,918,176)
Net position - end of year	$ 89,952,860	$ 86,455,401

The calculation of the change in investment in the District's percentage share of the Project as of December 31, 2017 and 2016 are as follows:

	2017	2016
Calculation:		
Change in net position before capital contributions	$ 36,270,459	$ 24,961,734
District's percentage share of ending net position	50%	50%
Net Income allocation to District	18,135,230	12,480,867
Investment in Tri-Dam Project, beginning	43,227,701	38,074,439
District distribution for the year	(16,386,501)	(7,327,605)
Net income allocation to District	18,135,230	12,480,867
Investment in Tri-Dam Project	$ 44,976,430	$ 43,227,701

NOTE 13: GOVERNMENTAL ACCOUNTING STANDARDS BOARD STATEMENT ISSUED, NOT YET EFFECTIVE

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to the report date, that have effective dates that may impact future financial presentations.

Governmental Accounting Standards Board Statement No. 75

In June 2015, the GASB issued Statement No. 75 – *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities.

This Statement replaces the requirements of Statement No. 45 – *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57 – *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2017. The impact of the implementation of this Statement to the District's financial statements has not been assessed at this time.

NOTE 13: GOVERNMENTAL ACCOUNTING STANDARDS BOARD STATEMENT ISSUED, NOT YET EFFECTIVE - continued

Governmental Accounting Standards Board Statement No. 83

In November 2016, the GASB issued Statement No. 83 – *Certain Asset Retirement Obligations.* This Statement (1) addresses accounting and financial reporting for certain asset retirement obligations (AROs), (2) establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs, (3) requires that recognition occur when the liability is both incurred and reasonably estimable, (4) requires the measurement of an ARO to be based on the best estimate of the current value of outlays expected to be incurred, (5) requires the current value of a government's AROs to be adjusted for the effects of general inflation or deflation at least annually, and (6) requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

Governmental Accounting Standards Board Statement No. 84

In January 2017, the GASB issued Statement No. 84 – *Fiduciary Activities.* The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

Governmental Accounting Standards Board Statement No. 85

In March 2017, the GASB issued Statement No. 85 – *Omnibus 2017.* The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]).

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Earlier application is encouraged.

NOTE 13: GOVERNMENTAL ACCOUNTING STANDARDS BOARD STATEMENT ISSUED, NOT YET EFFECTIVE - continued

Governmental Accounting Standards Board Statement No. 86

In May 2017, the GASB issued Statement No. 86 – *Certain Debt Extinguishment Issues.* The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Earlier application is encouraged.

Governmental Accounting Standards Board Statement No. 87

In June 2017, the GASB issued Statement No. 87 – *Leases.* The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

Governmental Accounting Standards Board Statement No. 88

In April 2018, the GASB issued Statement No. 88 – *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements.* The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established.

NOTE 13: GOVERNMENTAL ACCOUNTING STANDARDS BOARD STATEMENT ISSUED, NOT YET EFFECTIVE - continued

Governmental Accounting Standards Board Statement No. 88 - *continued*

This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses.

For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

NOTE 14: COMMITMENTS AND CONTINGENCIES

Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes that ultimate outcome of such matters, if any, will not materially affect its financial condition.

Regulatory

In prior years, petitions for water from the Stanislaus River, the primary source of water for the District, its tributaries and other waterways flowing in or adjacent to the District, have been filed with the State Water Board ("SWB"). Each petition sought to obtain a water right that, if granted, may have the effect of limiting, reducing or affecting, either in amount or timing, the existing water rights held by the District. As a result, the District has filed, or will be filing, an opposition to each petition. This year, however, there were either no active petitions or the petitioners settled with the District. Calaveras County Water District has filed petitions with the SWB to extend the time period to perfect their permits. The Petitions have not yet been noticed by the SWB.

Contract Commitments

District had the following capital project commitments outstanding as of December 31, 2017:

Project Name	Contract Amount	Remaining Amount Committed
Two Mile Bar Tunnel - New Tunnel Construction	$ 15,183,866	$ 10,719,319
Two Mile Bar Tunnel - Project Management	1,431,005	876,613
Two Mile Bar Tunnel - CEQA Permitting	335,000	27,940
Two Mile Bar Tunnel - Biological Services	290,764	186,042
Two Mile Bar Tunnel - Final Design	274,581	1,773
Two Mile Bar Tunnel - Engineering	256,000	20,135
South Main Canal - Segment 4 Design	72,182	26,513
	$ 17,843,398	$ 11,858,335

NOTE 14: COMMITMENTS AND CONTINGENCIES - continued

Operating Lease Commitments

The District has one lease commitment. A eight (8) year commercial lease for additional office space. This lease with GGD Oakdale LLC expired on March 31, 2019. The monthly lease payment, including sales and use tax, is $2,325.

The following table summarizes future minimum commitments under these lease agreements:

Year ended December:	
2018	$ 29,247
2019	7,334
Total payments	$ 36,581

Rental expense relating to the lease was $28,878.

NOTE 15: SUBSEQUENT EVENTS

Events occurring after December 31, 2017, have been evaluated for possible adjustments to the financial statements or disclosures as of June 19, 2018, which is the date these financial statements were available to be issued.

Required Supplementary Information

OAKDALE IRRIGATION DISTRICT
DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY - LAST TEN YEARS*
As of December 31, 2017

	Measurement Date			
Description	6/30/2017	6/30/2016	6/30/2015	6/30/2014
District's proportion of the net pension liability	0.04127%	0.03893%	0.03347%	0.04327%
District's proportionate share of the net pension liability	$ 4,092,925	$ 3,368,866	$ 2,297,303	$ 2,692,547
District's covered - employee payroll	4,546,326	4,369,901	4,300,181	4,435,167
District's proportionate share of the net pension liability as a percentage of covered payroll	90.02%	77.09%	53.42%	60.71%
Plan's fiduciary net position as a percentage of the total pension liability	78.26%	84.18%	88.27%	83.03%

Notes to Schedule:

Change in Benefit Terms - There were no changes to benefit terms that applied to all member of the Public Agency Pool for the measurement date Jun 30, 2017

Changes in assumptions - In fiscal year 2017, the financial reporting discount rate for the PERF C was lowered from 7.65 percent to 7.15 percent. In December 2016, the CalPERS Board approved lowering the funding discount rate used in the PERF C from 7.5 percent to 7.00 percent. The funding discount rate includes a 15 basis-point reduction for administrative expenses, and the remaining decrease is consistent with the change in the financials reporting discount rate.

* The District has presented information for those years for which information is available until a full 10-year trend is completed.

Ratios to Redevelopment Incremental Valuation ($4,054,601,828):

- Overlapping Tax Increment Debt 3.37%

(1) The percentage of overlapping debt applicable to the county is estimated using taxable assessed property value. Applicable percentages were estimated by determining the portion of the overlapping district's assessed value that is within the boundaries of the county divided by the district's total taxable assessed value.

(2) Excludes tax and revenue anticipation notes, enterprise revenue, mortgage revenue and tax allocation bonds and non-bonded capital lease obligations. Qualified Zone Academy Bonds are included based on principal due at maturity.

Independent Auditor's Report on Compliance and on Internal Control Over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Directors
Oakdale Irrigation District
Oakdale, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Oakdale Irrigation District (District) as of and for the year ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprises the District's basic financial statements, and have issued our report thereon dated June 19, 2018.

Internal Control Over Financial Reporting

In planning and performing our audits of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.
A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Independent Auditor's Report on Internal Controls Over Financial Reporting And on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards, (continued)*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
